

Creative Math & Music Presents

Retirement Residences **Musical Performance or Songwriting Program**

Creative Math & Music is celebrating our 15th year anniversary as an award winning music and education centre! Our successful approach is to boost confidence and desire to learn by providing a comfortable setting and designing a learning plan around the individual's strengths.

Music therapy is known to enhance social and emotional skills, reduce depression among older adults and increases memory and promotes physical activity in a fun way. Creative Math & Music would like to offer your residents a wonderful musical experience led by CM&M founder Bob Spencer, by offering two unique options:

1. A **musical performance** where 1 entertainer will acoustically perform a variety of songs from the 40's, 50's, 60's and 70's. Songs will include popular hits from various artists including: Willie Nelson, Nat King Cole, Johnny Cash, Tony Bennett, Frank Sinatra, Gordon Lightfoot, Jimmie Rodgers, The Beatles, Bing Crosby, Kris Kristofferson, Elton John, Doris Day, Bobby Darrin, Perry Como, Neil Young, The Everly Brothers...and more.
2. An **interactive songwriting (themes - Remembrance Day, Christmas, Easter, Summer)** event will engage the audience in the creation of an original song. Title and lyrics will be based on audience contributions. Next the CM&M group will convert the suggested lyrics into an appropriate poetic format to fit into an original song model, adding melody and harmony with a theme about anything including your Retirement Residence and activities. We will record the song live off the floor.

Musical Performance	1-hour session	\$125
Interactive Songwriting Works	1.5-hour songwriting session	\$200

CREATIVE MATH & MUSIC is an award-winning music centre, offering a unique musical venue space.
